11th INTERNATIONAL WORKSHOP ON
HIV PEDIATRICS
MEXICO CITY, MEXICO • 19-20 JULY 2019
Prior to the 10th IAS Conference on HIV Science

WHY SHOULD YOU ATTEND?
The 11th International Workshop on HIV Pediatrics is the only conference that focuses on HIV Pediatrics on an international level. The 2-day program includes oral abstract and poster presentations, state-of-the-art lectures from invited speakers and more informal and interactive fora including debates and panel discussions. The workshop provides an interactive setting that provides a platform for presentation and discussion of the latest developments in the field, encourages young investigators to engage in the field of pediatric/perinatal HIV research, and stimulates new research activities and collaborations.

ORGANIZING COMMITTEE

Elaine Abrams, MD
ICAP Mailman School of Public Health, Columbia University, USA

Jintanat Ananworanich, MD, PhD
The US Military HIV Research Program, USA

Charles Boucher, MD, PhD
Erasmus University, The Netherlands

Edmund Capparelli, PharmD
University of California San Diego (UCSD), USA

Mark Cotton, MD, PhD
Stellenbosch University, South Africa

Patricia Flynn, MD, PhD
St. Jude Children’s Research Hospital, USA

Diana Gibb, MD, MRCP, MSc
Medical Research Council, United Kingdom

Carlo Giaquinto, MD
University of Padova, Italy

Victor Musiime, MBChB, MMed, PhD
Joint Clinical Research Centre, Uganda

Lynne Mofenson, MD
Elizabeth Glaser Pediatric AIDS Foundation, USA

Gareth Tudor-Williams, MD
Imperial College, United Kingdom

Noris Pavia Ruz, MD
National Autonomous University of Mexico, Mexico

LOCAL CHAIRS

Guillermo Vázquez-Rosales, MD
Pediatric Hospital, Mexico

Jintanat Ananworanich, MD, PhD
The US Military HIV Research Program, USA

Patricia Flynn, MD, PhD

FREE REGISTRATION
for young investigators with accepted abstracts!

WHO SHOULD ATTEND?
Researchers, clinicians, and industry specialists working in academic settings, hospitals, and non-governmental organizations.

The workshop explicitly supports participation of a diverse community of participants, including women, racial and ethnic minorities, and investigators from low and middle income countries and from a broad scope of disciplines.

The workshop brings together junior and senior investigators across a range of disciplines (pediatrics, adolescent medicine, virology, immunology, pharmacology, obstetrics/gynecology, epidemiology and behavioral sciences) to share experience across the critical content areas including HIV treatment and management, drug development, prevention of mother to child transmission, co-infections and co-morbidities, pediatric cure research and implementation science.

ABSTRACT SUBMISSION
Submit your abstracts for a poster or an oral focussed on the following Topics:

- Prevention of mother to child HIV transmission (PMTCT) (including issues for HIV-uninfected, exposed children).
- Antiretroviral treatment of pediatric HIV infection.
- Complications of HIV and its treatment in children.
- Co-infections in HIV-infected children.
- Comprehensive pediatric HIV care.
- HIV infection and adolescents (perinatally and behaviorally infected).
- Implementation science research on PMTCT and pediatric treatment programs.

ABSTRACT SUBMISSION DEADLINE: 29 MARCH
