4th International Workshop on HIV Pediatrics
Washington DC, USA
20 - 21 July 2012

BROCHURE

www.virology-education.com
Jointly sponsored by UC San Diego School of Medicine
It is our great pleasure to announce the 4th International workshop on HIV Pediatrics, which will be held in Washington DC, USA on 20 & 21 July 2012, preceding the AIDS 2012 Conference.

HIV treatment in infants and children differs from HIV treatment in adults, and caregivers face numerous problems when treating these patients, particularly in developing countries. These difficulties include the need for early infant diagnosis to allow early initiation of treatment, lack of data on safety and drug dosing for children using newer drugs, continued problems with availability of pediatric drug formulations, special adherence issues for children, etc.

Additionally, prevention of mother to child HIV transmission remains problematic in developing countries, both in terms of implementation of known effective interventions as well as transmission through breastfeeding. These areas of research need more attention, and therefore we have set up a highly focused international workshop on HIV Pediatrics together with a group of experts in this field.

The 4th International Workshop on HIV Pediatrics will continue to present a unique and much needed platform for international interchange on this important topic. The workshop will be abstract-driven and, by bringing together experts from different disciplines who are involved in daily clinical care for infants and children, this meeting will offer an interactive setting where the latest developments in the field can be presented and, more importantly, discussed, reviewed and evaluated. The ultimate goal of this interchange is to cultivate better treatment methods and strategies for infants and children in developed and developing countries.

This international workshop aims to bring together virologists, pharmacologists, pediatricians, obstetricians/gynecologists and other interested researchers to present and discuss the latest developments in the field of HIV Pediatrics, Drug Development, and Prevention of Mother to Child Transmission.

We would like to encourage you to attend the 4th International Workshop on HIV Pediatrics and welcome the submission of abstracts on your research and clinical cases in this field.

Kind regards,

The Organizing Committee
Scientific Committee

Elaine Abrams, MD
Harlem Hospital, Columbia University, USA

Ruth Bland, BSc, MBChB, DCH, MRPC, MD
University of KwaZulu-Natal, South Africa

David Burger, PharmD, PhD
University of Nijmegen, The Netherlands

Ellen Chadwick, MD
Children's Memorial Hospital, USA

Tsungai Chipato, MBChB
Univ. of Zimbabwe Coll. of Health Sciences, Zimbabwe

Kulkanya Chokephaibulkit, MD
Siriraj hospital/Mahidol University, Bangkok

Ashraf Hassen Coovadia, MBChB
Coronation Women and Children Hospital, South Africa

Anita De Ross, PhD
AIDS Reference Center, Italy

Marinella Della Negra, MD
Hospital Emilio Ribas, Brazil

Brian Eley, MD
Red Cross Children's Hospital, South Africa

Susan Fiscus, PhD
University of North Carolina School of Medicine, USA

Mary Fowler, MD
Makerere University, Uganda

Diana Gibb, MD, MRCP, MSc
Medical Research Council, UK

Tessa Goetghebuer, MD
Hôpital St Pierre, Belgium

Laura Guay, MD
Elizabeth Glaser Pediatric AIDS Foundation, USA

Edward Handelsman, MD
Division of AIDS, NIAID/NIH, USA

Shirin Heidari, PhD
International AIDS Society, Switzerland

Nick Hellmann, MD
Elizabeth Glaser Pediatric AIDS Foundation, USA

Chewe Luo, MD, PhD
UNICEF, USA

Maria Mellado, MD, PhD
Hospital Carlos III, Spain

Dhayendre Moodley, MSc, PhD
Nelson R Mandela School of Medicine, Durban

Philippa, Musoke MD
Makerere University, Uganda

Sharon Nachman, MD
SUNY Health Science Center Stony Brook, USA

Michal Odemarsky, MD, PhD
European Aids Treatment Group, Belgium

Paul Palumbo, MD
Dartmouth-Hitchcock Medical Center, USA

Jorge Pinto, MD, DSc
School of Medicine, Federal Univ. of Minas Gerais, Brasil

Thanyawee Puthanakit, MD
Chulalongkorn University, Bangkok, Thailand

Jose Tomas Ramos Amador, MD
Hospital Carlos III, Spain

Gabriella Scarlatti, MD, PhD
Ospedale San Raffaele, Italy

Annette Sohn, MD
TREAT Asia/amfAR, Bangkok, Thailand

Lynda Stranix-Chibanda, MBChB, MMED
University of Zimbabwe, Zimbabwe

Graham Taylor, MD
Imperial College, UK

Claire Thorne, BA, MSc, PhD
University College London, UK

Andrew Wiznia, MD
Jacobi Medical Center/Family Based Services, USA
Disclosure statement

It is the policy of the University of California, San Diego School of Medicine to ensure balance, independence, objectivity and scientific rigor. All persons involved in the selection, development and presentation of content are required to disclose any real or apparent conflicts of interest.

All conflicts of interest will be resolved prior to an educational activity being delivered to learners through one of the following mechanisms
1) altering the financial relationship with the commercial interest,
2) altering the individual’s control over CME content about the products or services of the commercial interest, and/or
3) validating the activity content through independent peer review. All persons are also required to disclose any discussions of off label/unapproved uses of drugs or devices.

Persons who refuse or fail to disclose will be disqualified from participating in the CME activity.

19:00h Dinner
Program Saturday 21 July 2012

08:00h  Young investigator poster awards, late breakers

Emerging issues in PMTCT

08:45h  Roundtable discussion: Elimination of perinatal HIV transmission

**Speaker:** James McIntyre, MBChB, FRCOG, Anova Health Institute, S. Africa

**Discussants:**
- Benjamin Chi, MD, Centre for Infectious Disease Research, Zambia
- James Kiarie, MBBCh, MMed, University of Nairobi, Kenya
- Praphan Phanupak, MD, PhD, The Thai Red Cross AIDS Research Centre, Thailand

09:45h  Acute HIV infection in pregnancy/breastfeeding

Dhayendre Moodley MSc, PhD, Nelson Mandela School of Medicine, South Africa

10:15h  Abstract presentations

10:45h  Coffee break

11:15h  Abstract presentations

12:00h  Lunch

12:45h  Poster viewing session 1

Comorbidities / coinfections

13:30h  Case presentations

**Long-term complications of ART:** Grace Aldrovandi MD, Children’s Hospital Los Angeles, USA

**Hepatitis coinfection:** Etienne Nel MD, Stellenbosch University, South Africa

14:30h  Malignancies in pediatrics HIV infection

Elena Chiappini MD, PhD, University of Florence, Italy

15:00h  Abstract Presentations

15:30h  Coffee break

16:00h  Debate pro and con: INH preventive therapy should be provided to all HIV-infected children in TB endemic settings

**Pro:** Mark Cotton MD, PhD, Stellenbosch University, South Africa

**Con:** Charles Mitchell MD, MS, University of Miami School of Medicine, USA

16:45h  Abstract Presentations

17:15h  Closing
The 4th International Workshop on HIV Pediatrics has been planned and implemented in accordance with the Essential Areas and policies of the Accreditation Council for Continuing Medical Education through the joint sponsorship of the University of California, San Diego School of Medicine and Virology Education.

The University of California, San Diego School of Medicine is accredited by the ACCME to provide continuing medical education for physicians.

The University of California, San Diego School of Medicine designates this live activity for a maximum of 12 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Cultural and linguistic competency statement

This activity is in compliance with California Assembly Bill 1195 which requires continuing medical education activities with patient care components to include curriculum in the subjects of cultural and linguistic competency. Cultural competency is defined as a set of integrated attitudes, knowledge, and skills that enables health care professionals or organizations to care effectively for patients from diverse cultures, groups, and communities. Linguistic competency is defined as the ability of a physician or surgeon to provide patients who do not speak English or who have limited ability to speak English, direct communication in the patient’s primary language. Cultural and linguistic competency was incorporated into the planning of this activity. Additional resources on cultural and linguistic competency and information about AB1195 can be found on the UCSD CME website at http://cme.ucsd.edu.
Meeting objectives

- To gather experts involved in HIV Pediatrics in an interactive workshop setting
- To provide a platform for presentation and discussion of the latest developments in the field.
- To map all current studies and results
- To translate new data to treatment guidelines
- To educate clinicians on how to best implement current and new drugs

Meeting venue

The meeting will be held at Hotel L’Enfant Plaza. This hotel is located nearby the National Mall, the Smithsonian Museums and other monuments.

Address: 480 L’Enfant Plaza, SW, Washington, D.C. 20024

Who should attend?

The target audience of the 4th International Workshop on HIV Pediatrics consists of virologists, pharmacologists, pediatricians, obstetricians, gynaecologists and PhD students active in the field of HIV Pediatrics.

Co-submission of abstracts

The workshop has been accepted as an Affiliated Independent Event to: AIDS 2012 XIX International AIDS Conference

Co-submission of abstracts to both the AIDS 2012 and this workshop is possible.
We invite you to submit abstracts for a poster or oral presentation. Please visit the Virology Education website for abstract topics and instructions: www.virology-education.com. Accepted abstracts will be published in the journal Reviews in Antiviral Therapy & Infectious Diseases.

**Deadlines abstract submission:**
- **Regular:** 20 April 2012
- **Late-breaker:** 18 May 2012
- Co-submission of abstracts to both this workshop and the XIX International AIDS Conference is possible

**Incentive for young investigators**

The conference organizers are committed to stimulate active participation of young investigators at the International Workshop on HIV Pediatrics. It is therefore that we offer a FREE registration to all young investigators with an accepted abstract.

We would like to encourage young investigators to submit an abstract and present their research data at the workshop.

**Registration**

We would like to encourage you to register for this important event. Please visit our website www.virology-education.com to register online.

By registering early you will be able to benefit from lower registration fees.

**Registration deadlines:**
- **Early registration:** 1 April 2012
- **Regular registration:** 1 June 2012
- **Late registration:** 8 July 2012

**Important contacts**

The Virology Education team of highly skilled and dedicated professionals is always at your service!

- **Fraukje (Kia) Heida,** Event Manager, is responsible for the logistical organization of the meeting. Email: fraukje.heida@vironet.com Tel.: +31 30 2307143
- **Wilco Keulen,** Senior scientist, is responsible for the scientific program. Email: wilco.keulen@vironet.com Tel.: +31 30 2307147
- **Alice Posthumus - Plantinga,** Managing Director, is responsible for industry support. Email: alice.posthumus-plantinga@vironet.com Tel.: +31 6 22482179
